### **Material Selection Acknowledgement Waiver**

Z&Z Pools is committed to providing excellence in the service we deliver to our customers which is why we ask you to confirm the selection of materials being used on your project. Please note that the materials being used on your project are both man made and made from natural stones. This can lead to vast variances in color and texture from one stone to the next. We do our best within our abilities to provide an accurate detail and representation of the finished product but have no control over variances in color due to different production runs from the manufacturers of certain tiles, etc. that will be used on your pool. We always recommend visually inspecting the stone, tile and plaster that you are choosing to use on your pool as it will provide you with a more accurate representation of the finished product rather than selecting colors/types merely from catalogs, online websites, and/or photographs. Z&Z Pools prefers to show samples of all selected colors, tiles, stones, etc. prior to finalizing selection and beginning work. Should you have concerns, your sales person or project manager will be more than helpful in getting you the samples you need to make your selections.

This acknowledgment shall serve to verify the selection by Model # and/or SKU# used by manufacturers to describe the exact product you wish to be used for your pool. By signing this acknowledgement form, you agree that Z&Z Pools has no control over variances in manufacturers products and are not to be held responsible for any misrepresentation that any supplier and/or manufacturer may produce on a given product. Z&Z Pools shall only be held responsible to provide exactly what is indicated on this form.
